

Skidmore, Owings & Merrill Foundation

October 31, 2012

The Skidmore, Owings & Merrill (SOM) Foundation is pleased to announce the opening of nominations for the **2013 Structural Engineering Traveling Fellowship**. This \$10,000 award for independent travel and study is open to both undergraduate and graduate students. The Foundation's goal is to instill in its fellows a heightened sense of the importance of aesthetics in structural design by offering them an opportunity to study buildings and bridges throughout the world.

We invite you to nominate your most promising students — those you believe deserve special recognition and the opportunity to broaden their education by traveling with an itinerary they themselves have developed according to their academic interests. A maximum of **two (2) nominees** from the **Civil Engineering Department** and **two (2)** from the **Architectural Engineering Department** are allowed. Nominees must receive a bachelor's or master's degree or Ph.D. from an accredited U.S. school between July 1, 2012 and June 30, 2013.

Kindly display this poster in a prominent location and nominate your most academically worthy students. Candidates should demonstrate the highest aspirations as students and prospective practitioners in the field.

- Submission Guidelines Available www.somfoundation.com
- Nominations/Applications Due December 10, 2012
- Essay and Proposed Itinerary January 28, 2013
- Winners notified no later than March 8, 2013

If you have questions about this program, please contact Nancy Abshire, Executive Director, at 312-360-4524 or somfoundation@som.com

On behalf of the Foundation and its Directors, I look forward to your participation.

Sincerely,

William Baker
Secretary/Treasurer, SOM Foundation
Partner SOM LLP

Established in 1979 to help enrich the education of the nation's most promising young architecture students, the SOM Foundation has broadened its award programs over the years to include engineering, interior architecture and urban design in recognition of the multi-disciplinary nature of design for the built environment. More than \$1,000,000 has been granted by the Foundation since it was established. The programs of the SOM Foundation are funded by an endowment established by the partners of Skidmore, Owings & Merrill LLP. The activities of the Foundation are wholly separate from those of the firm.

Skidmore, Owings & Merrill Foundation

Structural Engineering Traveling Fellowship *2013 Program Participation Guidelines*

1. Goal of the Fellowship

This Fellowship aims to foster an appreciation of the aesthetic potential inherent in the structural design of both buildings and bridges along with other major works of architecture and engineering. In this way, the Fellowship will encourage an awareness of the importance of the visual impact of structures among engineering students and their schools.

The \$10,000 Fellowship is awarded annually to a student who is graduating with a bachelor's degree, master's degree or Ph.D. in structural engineering. By enabling the Fellow to experience buildings, bridges and other structures first hand, the Foundation's hope is that the Fellowship will help the student gain a critical appreciation of the aesthetics of structure, thus influencing the teaching and practice of structural engineering in the future.

2. Eligibility

- 2.1. Applicant must be graduating with a bachelor's degree, master's degree, or Ph.D. in civil or architectural engineering with a specialization in structural engineering from a U.S. school between July 1, 2012 and June 30, 2013. U.S. citizenship is not required.
- 2.2. Candidates must intend to enter the professional practice of structural engineering in the field of buildings or bridges.

3. Application Process and Deadlines

- 3.1. Candidates must be nominated by the dean or department chair via U.S. mail using the nomination form attached or on the website. Forms must be received no later than 5:00pm (CST), Monday, December 10, 2012. Forms received after this time may not be considered.
- 3.2. An identification number will be assigned to each candidate. Candidates will be notified of their number via e-mail. This number is random and does not reflect the order in which a submission will be judged. The identification number is to assure the anonymity of each candidate and should be included on each page of the submission.
- 3.3. Submission materials, as outlined in Sec. 4, must be received no later than 5:00pm (CST), Monday, January 28, 2013. Submissions received later than 5:00 p.m. will not be considered.
- 3.4. The jury will meet in February. The winner will be notified no later than Friday, March 8, 2013.
- 3.5. The intention is to award one Structural Engineering Traveling Fellowship, but the Foundation reserves right to choose not to award, to co-award, or to split the prize as the jury deems appropriate.

Skidmore, Owings & Merrill Foundation

4. Submission Requirements

- 4.1. The completed **Cover Sheet** clipped to the submission so that it can be easily removed prior to judging.
- 4.2. A sealed **Letter of Recommendation** on school letterhead from a faculty member. The letter should be no longer than two pages and should address the student's specific strengths and how the award will further his/her growth.
- 4.3. An **Essay** using the following guidelines:
 - Applicant should describe his/her interest in the role of aesthetics, innovation, efficiency and economy in structural design of both building and bridge structures
 - Applicant is encouraged to select one structure that pleases them aesthetically and explain why
 - Essay should include additional images that support the thesis
 - School may provide guidance in essay preparation; however, work must be entirely that of student.
 - Essays should be two to four pages in length, including figures and illustrations.
 - Essays must be typewritten and double-spaced with appropriate heading, subheading, labeling and footnoting as necessary. Include assigned identification number on each page.
 - Nothing that identifies candidate sex, race, creed or school may be included in content.
- 4.4. A **Travel Itinerary** using the following guidelines
 - Itinerary should include sites of study and an explanation of how itinerary was selected and should indicate applicant's interest in the role of aesthetics, innovation and efficiency in structural design of both buildings and bridges
 - Itinerary and explanation must not exceed four pages. Include assigned identification number on each page
 - Nothing that identifies candidate sex, race, creed or school may be included in content.
- 4.5. The **Copyright Release Statement** (attached). The winning submission will become part of the SOM Foundation's archive. The Foundation reserves the right to use the winning submission — and winner's monthly memos and final report — or any portion of them in press releases, presentations, exhibits, history books and similar publications, as well as for public access for student and educational purposes in all media, including the Internet.
- 4.6. Retain a copy of your submission for your professional files. Originals will not be returned.

5. Submittal

- 5.1. Candidates are strongly advised to send their submission via a delivery service that can be tracked (i.e. FedEx, DHL, UPS).
- 5.2. Hand deliveries must be received and signed for at the address below no later 5:00 p.m., Monday, January 28, 2013.

Skidmore, Owings & Merrill Foundation

5.3. Address: Nancy Abshire
Executive Director SOM Foundation
224 S. Michigan Ave., Suite 1000
Chicago, IL 60604

Encl: Submission/Structural Engineering

6. Notification of Award

- 6.1. Winners and their schools will be notified by phone and in writing no later than Friday, March 8, 2013.
- 6.2. Each award recipient's submission is incorporated into the Foundation's archive, and each recipient is responsible for retaining a copy of the material prior to submission. Originals will not be returned for any reason.

7. Recipient Responsibilities

7.1. By accepting an award, the recipient agrees to:

- complete his or her research and travel by December 31, 2013 or within 18 months of graduation, depending on circumstances
 - all Fellowship money will be forfeited to the Foundation in event research and/or travel is not completed within those 18 months, unless written approval is obtained from SOM Foundation Chairman
 - provide monthly progress reports (via e-mail or letter) to the Foundation Chairman
 - file a final report (see below) within four months after completing research and travel
- 7.2. Each recipient also is required to submit an update in letter form detailing his or her research plans and/or travel itinerary for approval prior to undertaking a Fellowship. The Foundation expects actual research plans and/or study travel not to be less extensive than original proposal.

7.3. Upon itinerary approval, the award recipients will receive 90% of funds; the remaining 10% is payable upon receipt and approval of final report.

7.4. A minimum of four weeks is required to prepare and mail funds.

8. Final Report

8.1. Final 10% of funds will be forfeited to the Foundation if a final report is not completed within four months after completing research and travel, unless written approval is obtained from SOM Foundation Chairman.

8.2. Requirements:

Skidmore, Owings & Merrill Foundation

- Original plan of research and statement of intent
 - Final travel itinerary with cities and sites visited
 - For each significant building or structure studied, visual record of three to six digital images properly labeled with a brief description of each structure's important aspects
 - Personal viewpoint and analysis of studies and travel
 - Final statement describing if and how the Fellow's original intentions were fulfilled by travels
- 8.3. Final report should be submitted in a binder, with a visual section on either one or two-sided sheets, not to exceed "8 1/2 x 11" in portrait orientation.
- 8.4. The final report must also be provided on a CD for the Foundation archive and in .pdf format to post on the foundation website.

Fellows are encouraged to retain a copy of final report for their own records prior to submission; final report becomes permanent part of the SOM Foundation's archive and will not be returned for any reason. The Foundation hopes that over the years, each Fellow's report will become a valuable and convenient record for assessing the program's benefit to both the recipient and the profession.
